

Water Quality Report 2014 [click here](#)

JAPANESE KNOTWEED IS HIGHLY INVASIVE, DANGEROUS TO LAKES AND, IS IN OUR MIDST

The Commission shall meet periodically, but not less frequently than quarterly. The Lake Advisory Commission shall serve as an advisory commission to the Board of Selectmen and other Town agencies.

The Lake Advisory Commission shall have the following powers and duties:

To oversee the water quality and recreational use of Lake Terramuggus and help make recommendations to Town Agencies as to lake management issues. The Commission shall also promote the implementation of town goals and objectives as outlined within the various strategic plans of the various Town Agencies.

The Commission shall also be responsible for the following:

- Coordinating the water quality testing program.
- Coordination and update of the Lake Management Plan
- Public Outreach concerning lake management issues
