Independent Auditors' Report

Board of Directors Regional School District 8 Health and Medical Insurance Consortium

Report on the Financial Statements

We have audited the accompanying financial statements of the Regional School District 8 Health and Medical Insurance Consortium ("Consortium"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Consortium's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Board of Directors Regional School District 8 Health and Medical Insurance Consortium

Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Regional School District 8 Health and Medical Insurance Consortium as of June 30, 2019, and the changes in its financial position, and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2020, on our consideration of the Consortium's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Consortium's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Consortium's internal control over financial reporting and compliance.

Management's Discussion and Analysis For the Year Ended June 30, 2019

As management of the Regional School District 8 Health and Medical Insurance Consortium ("Consortium"), we offer readers of the Consortium's financial statements this narrative overview and analysis of the financial activities of the Consortium for the fiscal year ended June 30, 2019.

Financial Highlights

- The liabilities of the Consortium exceeded its assets at the close of the most recent fiscal year by \$12,495. This being the second year of operations for the Consortium, the claims payable of \$575,725 for the incurred but not reported ("IBNR") was to be funded over several years.
- The result of the Consortium's fiscal year was an increase in net position of \$308,492. This positive net position is attributable to charges for services exceeding claims. The claims payable recorded at year-end was \$899,047, including the IBNR estimated claims of \$575,725 and actual claims payable of \$323,322.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the Consortium's basic financial statements. The Consortium's basic financial statements comprise of two components: 1) fund financial statements and 2) notes to financial statements.

Financial Statements. The *statement of net position* presents information on all of the Consortium's assets and liabilities, with the difference between those accounts being reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Consortium is improving or deteriorating.

The financial statements present current year's revenues and expenses, which are accounted for in the statement of revenues, expenses and changes in fund net position. All changes in net position are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. These statements measure the success of the Consortium's operations over the past year and can be used to determine whether the Consortium has successfully recovered its costs through its member fees and other charges, profitability and credit worthiness.

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements.

Financial Analysis

Net position may serve over time as a useful indicator of the Consortium's financial position. In the case of the Consortium, liabilities exceeded assets by \$12,495 at the close of the fiscal year. The Consortium plans to fund the initial recording of the claims payable over a two or three-year period.

The net position balance is unrestricted and a deficit balance in the amount of \$12,495.

Summary Statement of Net Position June 30

	2019	2018
Current and other assets	\$ 907,627	\$ 497,223
Other liabilities	920,122	818,210
Net position - unrestricted	\$ (12,495)	\$ (320,987)

The operating activity for the fiscal year was as follows:

Revenues

Revenues totaled \$8,108,039 for the fiscal year as compared to \$8,032,626 for the prior year. The increase in revenue is due to the net increase in the required member contributions based on member employee demographic data.

Expenses

Expenses totaled \$7,799,547 for the fiscal year as compared to \$8,353,613 for the prior year. Claims comprised 85.69% of the total expenses. Administration and fees represented 13.43% and 0.88% of the total expenses, respectively.

The net decrease of \$554,066 is due to several factors as follow:

- In the Consortium initial year of operation, the IBNR amount was recorded as claims expense totaling \$652,239. In current year, the IBNR balance and the related claims expense decreased by \$76,514.
- Accounts payable and claims payable increased by \$101,912.
- Administration expenses increased by \$73,694 due to an increase in self-insured program and individual stop loss fees of \$39,022 and \$12,261, respectively, and an increase in commissions of \$19,117.

Statement of Changes in Net Position For the year ended June 30

	2019	2018
Revenues:		
Charges for services from members	\$ 8,105,550	\$ 8,032,626
Income from investments	2,489	
Total revenues	8,108,039	8,032,626

Expenses:		- 00 - - 04
Claims	6,682,957	7,297,521
Administration	1,047,690	973,996
Consultants	53,750	82,000
Professional fees	15,150	-
Fees		96_
Total expenses	7,799,547	8,353,613
Change in net position	308,492	(320,987)
N	(000,007)	
Net position - July 1	(320,987)	
Net position - June 30	\$ (12,495)	\$ (320,987)

The results of operations of the Consortium for the fiscal year was an increase in net position of \$308,492. This increase in net position is attributable to charges for services received from the members exceeding claims. The claims payable amount recorded at year end was \$899,047.

Economic Factors

The Consortium's operations are supported by member participation. Revenues are based upon participating members and correlates to expenses incurred by the member. Members may withdraw from the Consortium after three years of membership.

The Consortium's insurance broker evaluates claims experience on a monthly basis and reports that information back to the Consortium at their monthly meeting. Based on the claims history, the insurance broker recommended a 7.3% health insurance premium increase and (16.75%) dental insurance premium decrease for the 2019-2020 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Consortium's finances and to demonstrate fiscal accountability. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Board of Directors, 15 Gilead Street, Hebron, CT 06248.

Notes to Financial Statements As of and for the Year Ended June 30, 2019

History and organization

The Regional School District 8 Health and Medical Insurance Consortium ("Consortium") was established in March 2017 pursuant to Connecticut Public Act 10-174 to facilitate the purchasing of health and medical insurance coverage for the members. The purpose of the Consortium is to allow members to pool their various enrollee counts in order to achieve cost savings and risk sharing in the purchasing of health, dental, and welfare products insurance coverage. The members of the Consortium are as follows:

- Regional School District No. 8
- Town of Hebron
- Hebron Board of Education
- Town of Marlborough
- Marlborough Board of Education
- Town of Andover
- Andover Board of Education
- Andover, Hebron, Marlborough Youth and Family Services, Inc.

The Consortium adopted their bylaws in March 2017, which were revised in November 2017.

Each member will be responsible for contracting for and paying for the health insurance premiums for their respective employees. Eligible retirees will be responsible for payment of health insurance premiums pursuant to the applicable retirement policies from whichever member the retiree retired. The Members will share in the costs of, and assume the liabilities for health benefits provided to covered officers, employees, and their dependents. Each member will pay on demand their share of any assessment or additional contribution ordered by the Board of Directors. The pro rata share will be based on the member's relative premium.

Members may withdraw from the Consortium after three years of membership. Previous members who have withdrawn from the Consortium may not apply to rejoin until three years after their withdrawal.

I. Summary of significant accounting policies

A. Financial statements

The financial statements (i.e., the statement of net position and the statement of revenues, expenses and changes in fund net position) report information on all of the Consortium's activities.

The financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Notes to Financial Statements As of and for the Year Ended June 30, 2019

B. Measurement focus, basis of accounting and financial statement presentation

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Consortium are charges for services. Operating expenses for the Consortium include claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Activities not related to the Consortium's primary purpose are considered nonoperating. Non-operating activities consist of income from investments.

C. Assets, liabilities, deferred outflows/inflows of resources and net position

1. Cash and investments

a. Cash

The Consortium's cash consists of cash on hand and demand deposits.

For cash flow purposes the Consortium considers cash equivalents money market accounts and short-term investments with original maturities of three months or less from the date of acquisition.

b. Investments

In general, State of Connecticut Statutes allow the Consortium to invest in obligations of the United States of America or United States government sponsored corporations, in shares or other interests in any custodial arrangement, pool or no-load, open-end management type investment company or investment trust (as defined), in obligations of any State or political subdivision rated within the top two rating categories of any nationally recognized rating service, or in obligations of the State of Connecticut or political subdivision rated within the top three rating categories of any nationally recognized rating service.

c. Method used to value investments

Investments for the Consortium are reported at fair value.

Fair value of investments

The Consortium measures and records its investments using fair value measurement guidelines established by accounting principles generally accepted in the United States of America (GAAP). These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets:
- Level 2: Quoted prices for identical investments in markets that are not active; and
- Level 3: Unobservable inputs.

Notes to Financial Statements As of and for the Year Ended June 30, 2019

C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

d. Risk policies

Interest rate risk – Interest rate risk is the risk that the government will incur losses in fair value caused by changing interest rates. The Consortium does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit risk – Credit risk is the risk that an issuer or other counterparty will not fulfill its specific obligation even without the entity's complete failure. The Consortium has no investment policy that would limit its investment choices due to credit risk other than State Statutes governing investments in obligations of any State or political subdivision or in obligations of the State of Connecticut or political subdivision.

Concentration of credit risk – Concentration of credit risk is the risk attributed to the magnitude of an entity's investments in a single issuer. The Consortium follows the limitations specified in the Connecticut General Statutes. Generally, the Consortium's deposits cannot be 75% or more of the total capital in any one depository.

Custodial credit risk – Custodial credit risk is the risk that, in the event of the failure of the counterparty, the Consortium will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The Consortium does not have a formal policy with respect to custodial credit risk.

2. Claims payable

The claims liability reported in the financial statements is based upon accounting principles, which require that a liability for estimated claims incurred but not reported be recorded. The amount of claim accrual is based on the ultimate costs of settling the claim, which include past experience data, inflation and other future economic and societal factors and incremental claim adjustment expenses, net of estimated subrogation recoveries. The claim accrual does not include other allocated or unallocated claims adjustment expenses.

3. Net position

Net position is classified as unrestricted net position which represents the net position of the Consortium, which is not restricted.

When the Consortium funds outlays for a particular purpose from both restricted and unrestricted resources, in order to calculate the amounts to report as restricted - net position and unrestricted - net position in the proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the Consortium's policy to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Notes to Financial Statements As of and for the Year Ended June 30, 2019

C. Assets, liabilities, deferred outflows/inflows of resources and equity (continued)

4. Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities including disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the fiscal year. Accordingly, actual results could differ from those estimates.

5. Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

II. Detailed notes

A. Cash and investments

1. Deposits – custodial credit risk

As of the end of the fiscal year, \$657,627 of the Consortium's bank balance of \$907,627 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 430,720
Uninsured and collateral held by the pledging bank's trust	
department, not in the Consortium's name	226,907
	·
Total amount subject to custodial credit risk	\$ 657,627

Financial instruments that potentially subject the Consortium to significant concentrations of credit risk consist primarily of cash. From time to time, the Consortium's cash account balances exceed the Federal Deposit Insurance Corporation limit. The Consortium reduces its credit risk by maintaining its cash deposits with major financial institutions and monitoring their credit ratings.

2. Investments

- **a.** The Consortium's investments consisted of a bank money market of \$252,489 with a maturity of less than one year.
- **b.** The Consortium's bank money market investment is not subject to fair value measurement.
- **c.** The Consortium's investment is not subject to credit risk or custodial credit risk.

Notes to Financial Statements As of and for the Year Ended June 30, 2019

III. Other information

A. Risk management

Any claims paid for a member will be funded from the Consortium and the risk of claims will be shared by the Consortium collectively, not by the member. The individual stop loss is \$150,000. The annual aggregate stop loss maximum is 115% of the total expected claim liability. There were no significant reductions in insurance coverage from amount held in the prior year. Settled claims have not exceeded insurance coverage in the past two years.

All members are charged premiums by the Consortium, which are included in the charges for services revenue, to cover the estimated cost of claims payment based on historical cost estimates of the amounts needed to pay prior and current year claims. Claims liabilities include an estimate of claims incurred but not reported and are the Consortium's best estimate based on available information.

The following is a summary of changes in claims liability during the year:

	Claims Payable July 1	Current Year Claims and Changes in Estimates	Claims Paid	Claims Payable June 30
2017 - 2018	\$ -	\$ 7,297,521	\$ 6,490,561	\$ 806,960
2018 - 2019	806,960	6,682,957	6,590,870	899,047

The claims payable amount is comprised of \$323,322 of June 2019 claims paid in July 2019 and \$575,725 of incurred but not reported claims.

Internal Control and Compliance Report

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Board of Directors Regional School District 8 Health and Medical Insurance Consortium

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Regional School District 8 Health and Medical Insurance Consortium ("Consortium"), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Consortium's basic financial statements, and have issued our report thereon dated February 28, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Consortium's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Consortium's internal control. Accordingly, we do not express an opinion on the effectiveness of the Consortium's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Consortium's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Consortium's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Consortium's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
