

SOUTH MAIN STREET CULVERT REPAIR PROJECT

The Town has engaged Machnik Brothers Inc. to replace 4 culverts on South Main Street from 111 South Main Street to 163 South Main Street. Work will commence on July 1st and is anticipated to finish by October 1st. During construction, through traffic on South Main Street will not be available, but all residences will be accessible from one end of South Main or the other. Signs alerting drivers to the address where access is open will be posted on Garden Lane and South Road intersections with South Main Street. Access to homes in the area of the culvert replacements will be maintained.

Once school commences, through access on South Main Street will be available for school buses only, until the project is completed.

Culverts will be replaced at the following four locations:

Between 111 & 117 South Main Street

Between 117 & 127 South Main Street

Between 127 & 131 South Main Street

Between 157 & 163 South Main Street

Construction Plans are available for inspection in the Building/Land Use Department during normal Town Hall business hours.
